

## **Management Team:**

### **Mr. Dhirajlal Kotadia, Founder & Chairman**

Mr. Kotadia is Group Chairman and provides thought leadership & strategic guidance to the Sahajanand group companies. He has been closely involved in the high tech diamond manufacturing industry for more than twenty years. Leading Sahajanand since 1989, he became the architect behind the path-breaking technology revolution in the diamond industry. Driven by his "innovation" character, he has nurtured Sahajanand Group which operates with companies in diversified sectors- Engineering & Laser technology, Medical technology and Biotechnology.

### **Dhirajkumar Vasoya, Managing Director**

Mr. Vasoya is Managing Director of the company & Group Director as well. He has been closely involved, from the very beginning, in growth of Sahajanand Technologies in the diamond industry. He has started working on laser technology based equipments with Mr. Kotadia. He was the co-founder of the company. From year 2003, with formal restructuring of the company, he went on to become Managing Director handling administrative issues. He is closely associated with group's range of strategic, administrative & business performance issues.

### **Rahul Gaywala, CTO**

Mr. Rahul Gaywala is currently the CTO of Sahajanand Technologies Pvt. Ltd. Before moving on to becoming the CTO of the company, Mr. Gaywala was instrumental in developing the IT strategy of the company in his capacity as the President of IT division. An effective IT policy has been designed and implemented by him, in tune with the needs of this rapidly growing company and with latest technology by his side. He has also been responsible for developing IT infrastructure, software development for in-house & commercial purpose, New Product Development for Diamond Processing and Customer Support for high end products. Mr. Gaywala joined Sahajanand Technologies in 1993 as EDP Manager, and during his tenure, he has developed & implemented various Artificial Intelligence driven technology platforms for diversified industries.

### **Vallabh Narola, CEO**

Mr. Narola is serving as CEO of Sahajanand Technologies. He is responsible for new product design & development and establishment of production facilities for entire product line of the company. He was closely associated with the company since 1995. He was technology consultant of the Sahajanand Technologies & assisted in designing Company's Laser driven diamond processing machines. He decided to join Sahajanand Technologies in 1997. During this period he was heading a business unit 'Crystal Engineers' & was one of the leading suppliers of the company. Prior to joining Sahajanand, he was with Gujarat Gas Corporation & has held a number of senior management positions across the organization. He has professional experience in management level roles including design, quality assurance, logistics, purchase & marketing. He has undergone management & HRD training programs from leading management institutes like IIMA, XLRI.

### **Jayanti Vaghasia, VP (Administration)**

Mr. Vaghasia is appointed Vice President Administration in February 2008. He is associated with range of financial, administrative & purchase issues of the company. Prior to assuming his current position, he was serving as Vice President Finance & Administration, since 2003. He also deals with issues pertaining to export & import strategy for Sahajanand. He has started his career with Sahajanand Technologies in 1994 handling company accounts & has been contributing to the growth of the company since then.
